Ultimate Protection from Nature's Elements

Ultimate Protection from Nature's Elements

UltraSite™ now offers **UltraShade™**, a wide variety of high-quality engineered shade products that protect from many of Mother Nature's elements; Sun, Heat, Hail and UV Rays. With options of both standard shapes and custom-designed structures, an UltraSite sales representative will guide you through a simplified process of providing a shade that protects your recreation investment and your community.

UltraShade™ pre-engineered shade structures are shipped as a pre-fabricated package, and we recommend that installation be performed by trained, highly skilled professionals.

Some of the long term benefits of UltraShade's structures include:

Design Features:

1. All steel tubing and bolts meet or exceed ASTM Standards
2. Framework is engineered to withstand wind gusts up to 90 mph with fabric and up to 150 mph with fabric removed
3. Structures are free of sharp edges and corners
4. Optional Quick Release elbows permit a quicker method of attachment and removal of fabric

Post Pads

Optional Post Pads provide additional protection on playgrounds or sport courts. Available in 4' and 6' lengths.

The "Quick Release"

UltraShade offers an optional patent pending quick release lever that saves time during removal and storage of shade fabric.

UltraShade™ Fabrics

- Stitched with Gore® TENARA®, UV stabilized thread that will not fade or deteriorate
- Mildew and rot resistant
- Maintain color in all weather conditions
- Lockstitch sewing technique that prevents frays or unraveling
- Provide up to 97% UV Block and 91% Shade with temperature reductions of up to 30 degrees
- Meet or exceed ASTM E84 testing, NFPA 701 Large Scale testing
- 80% water repellent
- Porous fabric provides free airflow, allowing hot air to escape
- 100% recyclable

Structural Information

- Engineered to withstand wind gusts up to 90 mph with fabric and up to 150 mph with fabric removed
- Welds are performed in accordance to American Welding Society standards
- Structures are free of sharp edges and corners
- Galvanized cables (aircraft quality)
- Pre-galvanized structural steel Flo-Coat tubing
- Steel and bolts meet ASTM guidelines (stainless steel or galvanized)
- A500 carbon steel tubing may be used for larger structures
- All steel members have TGIC polyester powder coat

Limited Warranty

UltraShade™ by UltraSite™, warrants that the shade structure sold will be free from defects in materials under intended use for a period of 10 years from the date of delivery (structure & fabric).
